Features

【IoT + Intelligent Monitoring System】

Combines IoT technology with Intelligent Monitoring System to comprehensively enhance equipment connectivity. It enables remote real-time monitoring, intelligent data analysis and automatic response to abnormal situations, optimizing operational efficiency.

【AI Pedestrian Detection and Active Warning】

Adopts advanced AI algorithms to identify potential blind spot dangers in real-time and provide accurate pedestrian detection. When pedestrians approach the forklift, the system can quickly issue an active warning to minimize the risk of accidents.

【DMS Face Identification】

Supports driver face detection and authentication to avoid unauthorized use of forklift and midway driver change.

【Waterproof】

The monitor is IP66 waterproof and the cameras are IP69K waterproof.
