Features

【Two-in-one that combines in-vehicle DVR and monitor】

a major upgrade of invehicle monitor! It can record and replay driving videos, support multiple recording modes (regular recording, event recording, loop recording, time-planning recording, etc.) With built-in G-sensor, support G-sensor alarm recording triggered by collision detection. Sufficient storage, support 4*512GB Micro SD card. All of these functions can help you free from unreasonable damage and responsibility.

【Efficient fleet management】

support GPS input, can realize vehicle history track tracking, vehicle positioning and speeding alarm

【1080P high definition video】

Supporting 4 CH HD camera input, provide very stable HD video, avoid vehicle-around blind spots.

【Multiple formats】

Multiple video formats available to cameras: 1080P30/1080P25/720P30/720P25/PAL/NTSC.

【Multi-screen mode】

9 inch wide screen, display mode supports single view, split view, quad view, and other views. Different viewing angles provide a 360 image for better driving experience.

【Data security】

support menu Lock, ACC time-lapse recording, camera power short-circuit protection, super capacitor power-down protection, to prevent the loss of video data.

【Easy operation】

support capacitive touch screen and infrared remote control; WIFI function optional, support Web UI.

【Trigger function】

5 trigger lines input, trigger line definition, trigger delay and priority can be adjusted freely.

【Some practical add-ons】

Able to set reversing marking line, adjusting and calibrating freely; Multi languages available, able to be customized according to users' requirements.
