Features

【Automotive-Grade Reliability】

AEC-Q100-qualified components ensure high reliability, durability, and EMI resistance, enabling stable performance in demanding vehicle environments.

【Intelligent Heated Defogging】

Built-in lens heating automatically or manually removes fog, condensation, and frost, ensuring clear visibility in adverse weather conditions.

【Low-Latency Transmission】

LVDS digital transmission technology with 60 fps output delivers fast, reliable video transmission and responsive system performance.

【HD Wide Dynamic Imaging】

A 1536P HD image sensor combined with 120 dB WDR technology provides clear, detailed images in bright sunlight, backlit scenes, and low-light environments.
