Features

【1080P Blind Spot Monitoring】

Supports 3-Channel 1080P cameras input, displaying three horizontal images simultaneously

【Two-in-one that combines in-vehicle DVR and monitor】

a major upgrade of invehicle monitor! It can record and replay driving videos. With built-in G-sensor, support G-sensor alarm recording triggered by collision detection. All of these functions can help you free from unreasonable damage and responsibility.

【3s output speed】

quick turn-on, start displaying images and recording videos within 3 seconds after powered.

【IPS screen】

high contrast, high brightness.It could restore the true color, presenting the brighter and more delicate display with much higher resolution.

【Replacement for Traditional Rearview Mirror】

Having solved the problems of being poor visibility at night, susceptible to rainy, snowy and foggy weather and having strong reflection, etc. on traditional rear-view mirrors.

【Data security】

ACC time-lapse recording; super capacitor power-down protection, to prevent the loss of video data.
