Features

【4G Remote Monitoring】

Connects to the cloud platform via 4G network for remote real-time monitoring. Built-in WiFi supports fast mobile phone configuration.

【Video Recording】

Supports up to 256GB Micro SD card for local video recording and event log storage.

【BSD Pedestrians & Vehicle Detection】

Built-in deep learning BSD algorithm with night vision capability for accurate all-day detection of pedestrians and vehicles around the vehicle.

【Audio & Visual Alerts】

Integrated audio and visual alarm, when pedestrians appear in the "detection area", the camera will emit an alarm signal in different colors to frame them and produce a "ding" alarm sound with different degrees of urgency.
