Features

【Intelligent Heating Defogging】

Automatic heating and defrosting activate below 10°C. Manual timed heating is also supported, allowing the image to quickly return to clarity in low-temperature and high temperature-difference environments.

【Laser Positioning】

Built-in laser positioning line helps the driver to accurately operate the fork, so as to avoid damage to the goods

【HD Wide-Angle View】

Featuring a horizontal viewing angle of 95° (±5°) and vertical viewing angle of 50° (±5°), with 1080P HD imaging for wider coverage and reduced blind spots.

【Industrial-Grade Reliability】

Designed for harsh environments and intensive operations, featuring high reliability, stable wireless transmission, wide voltage and wide temperature support, vibration resistance, and IP69K-rated dustproof and waterproof protection.
